This warranty is in lieu of any other warranty, either expressed or implied, and in lieu of any other obligation or liability on our part, and we neither assume nor authorize any person to assume on our behalf any other obligation or liability in connection with the sale of this product. No warranty is given if the DOVER POOL PRODUCTS AQUA-BRELLA™ SAFETY COVER to which this warranty applies, has been subject to abuse, accident, alteration, misuse, neglect, coping wear, drag holes, hole, punctures, intense external thermal reaction (fire, heat, etc.), or if the water level of the pool drops more than 18 inches below the pool top during the winter season. Damage caused by wind, storm or any other acts of God are also not covered. This warranty will not remain in effect if the use of a standard or rectangular cover is used on an odd or irregular shaped pool. Solid covers without mesh drains use pumps to remove excess water from the cover. Pumps must be used at all times when solid covers without drains are installed on the pool. Excess water can weigh down the cover and stress the seams beyond their tolerable limits which will not be covered under this warranty.

This warranty will apply within the continental limits of the 48 contiguous states of the United States of America.
